**AkaSprout Seed Colorants are a technologically advanced and widely compatible dispersion line specifically designed for the agricultural market.**

- Akasprout colorants listed on the EPA Tradename Database.
- Improved film formation which significantly reduces dusting.
- Reduced bridging with no reduction in flowability.
- Complete line of approved colors and liquid special effect pearlescents.
- Long term dispersion stability with little to no settling.
- Long shelf life & in-can stability.
- Non-staining & incredibly easy clean-up of equipment.
- Special development and tailor-made colorant formulations available.
- Manufactured in the USA (Savannah, GA)
